Customers find the cup holder adapter works well and appreciate its ability to adjust for different sizes, including 40 oz Hydroflask bottles. Moreover, the product is well-built, easy to install with just a few twists, and customers like its design, with one noting it looks almost part of the car. Good Product

Reviewed in the United States on November 3, 2022
Color: Black Size: 18-40oz (Standard Base) **Verified Purchase**

Went through about a dozen different design oversized cup holder adapters for my SUV and pickup in the last two years and all had problems ranging from just plain cheap/flimsy materials to unstable to not fitting as described. Bought two of these Swigzys on a hunch after looking carefully at the photos and description. They work great. Easy install, and easy removal. Your 9 year old could do it. They can even be positioned offset, with a simple screw change, from center if your vehicle requires that to clear a console shifter or an adjacent cup holder. The rubber tabs inside the cup holder section are WAY better than the many competitors as they do not pull out and they leave no gaps in coverage. AND you do NOT have to remove any of them to fit various cups and bottles like you do with many others. Everything I've put in them from 20 oz bare Diet Coke bottles to the larger Yetis to a big coffee mug with handle fit in and out easily and was retained well with no loosening or vibration. They're even useable with the smaller 16oz Coke bottles and 12 oz cans with only minimal movement thanks to the rubber tabs design. Put a koozie on either of those and get

Doesn't Fit All Vehicles (they are quite large)

Reviewed in the United States on April 5, 2025
Color: Black Size: 18-40oz (Long Base) **Verified Purchase**

I purchased two of these cup holders because I read a review that said they would fit the cup holders in a Rav4. I drive a 1999 Rav4 Liberty and these absolutely positively DO NOT fit in my Rav4. I returned both cup holders without incident. Having said that the cup holders are quite large and seem very sturdy and stable and I think they would work well in a larger vehicle where the cup holders are not placed in front of the gear shift and against the dash.

This one actually works!!!

Reviewed in the United States on July 7, 2025

Third cup holder I tried to hold an Owala 32oz tumbler. Both previous products were flimsy and wobbled in the cup holder.

This one fits tight in the cup holder, holds the Owala, and will even hold my 42 ounce Stanley easily.

It is well made and they paid attention to details. Rubber all around anything that touches the tumbler, even a rubber coaster at the bottom of the cup holder. An offset feature that insured easy access to the other cup holder.

Very happy with this product!

I love this! I love that you can adjust it to your cup holder size. It's very stable. My cup has not fallen out of it. And it can hold a cup of any size, so that's a plus!

cannot recommend it enough. Perfect. Ordered a second one instantly.

Reviewed in the United States on May 5, 2025

I did a LOT of comparison shopping. This is the one. I bought the first, and ordered another one like two days later. I like that the logo isn't excessive. It's matte black and doesn't look cheap. It really WAS easy to install. Like 10 seconds. Even if you're not mechanical, it's foolproof. It doesn't budge. The option of offset (just an inch or so off of center) helps fit multiples if they are side by side. (I have a 2018 Honda CRV). Fits 40 oz. Hydroflask.

I was a bit put off by the price but a lot of cheaper options don't hold containers reliably. This is so easy to adjust to fit your cup holder and holds mugs with handles and my Jack Wolfskin large 2 cup flask without any wobbles.

Great cup holder for my Yeti collection

Reviewed in Canada on December 28, 2022
Color: Black Size: 18-40oz (Long Base) **Verified Purchase**
The long base version fits the recessed 2019+ Rav4 cupholder well. I like the adjustability of the product which ensures keeping the holder in place when driving. Fits most of my Yetis (see photo). The 14oz rambler mug unfortunately didn't make the cut. A bit on the pricey side but worth it due to the limitations the Rav4 cupholders has for beverage container fitment.
